

## LCD Smart Advertising Kiosk

32"/43"/49"/55"/65"/75"/85"

- Remote Control
- Slim Body
- 3D Noise Reduction
- Surround Sound

## 1080P HD picture quality

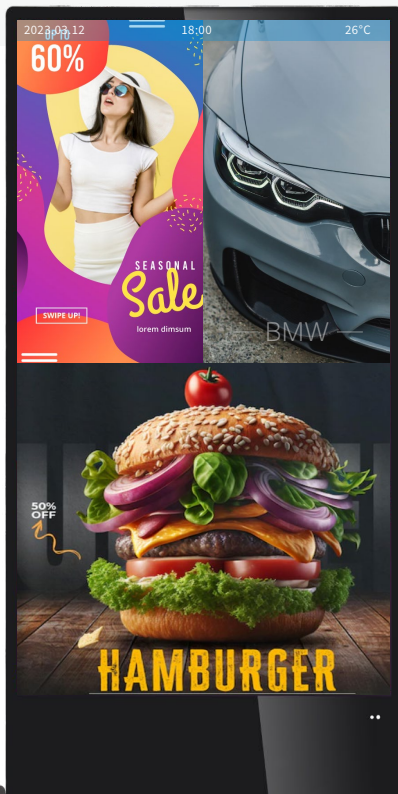

With a 1920 x 1080 pixel resolution, our kiosk faithfully reproduces every colour, delivering outstanding contrast and highlighting intricate image details.

## 178° wide viewing angle

Experience our kiosk's wide viewing angle of 0-178°, ensuring high-definition visuals from any perspective.

178°

## Intelligent split-screen display

Our kiosk supports split-screen playback and display of various video and image formats, meeting the diverse requirements of different application scenarios.

## Multiple functions

The kiosk offers a range of features, including timed power on/off, scrolling subtitles, calendar displays, and dynamic video/image slideshows.

## Diversified management control

The advertising kiosk supports local U-disk playback and remote information distribution via mobile phones, computers, and other devices, allowing for easy and quick screen content updates and unified control of multiple kiosks.

## Powerful Performance and Stable Output

With its high stability and low failure rate, the advertising kiosk provides long-lasting and reliable picture quality.

**24/7**  
continuous operation

**≥50000**  
50,000+ hours lifespan

## Application scenarios

Ideal for leisure supermarkets, fashion outlets, navigation guides, government systems, medical care, exhibition displays, etc.
