## Outdoor LCD Smart Advertising Kiosk
55"/65"/75"/86"

- IP65 Super Protection
- 24/7 Operation
- Remote Control
- 3D Surround Sound

UHD

UHD image quality, new visual upgrade

With UHD resolution, the display achieves exceptional clarity and exquisite detail.

The kiosk delivers high brightness and contrast for accurate colour representation, faithfully reproducing every real detail.

Ambient light sensor

The automatic light sensor system adjusts the screen brightness according to the ambient light and colour temperature, which keeps the screen brightness for a comfortable viewing experience, saves energy and prolongs the service life.

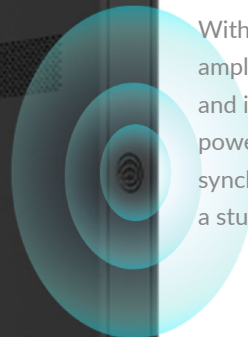

IP65 super protection, robust and stable

The advertising kiosk is equipped with high-quality cooling fans and offers protection against lightning, overload, overvoltage, filtering, and over-temperature. Its structure includes waterproof and dustproof features, achieving an IP65 protection rating, allowing normal operation in various harsh environments.

3D surround sound system, immersive audiovisual experience

With a dual-channel surround sound amplifier system, it provides a seamless and immersive audio experience. The powerful low-frequency sound unit synchronizes with the visuals, delivering a stunning audiovisual presentation.

Remote control system, cloud-based intelligent management

Support various functions such as controlling display content, scheduling power on/off, and remote information publishing through mobile phones and computers, enabling remote management.

Support infrared remote control for menu selection, file playback, etc.

Powerful performance, stable output

With high stability and low failure rate, it supports continuous 24/7 operation, delivering uninterrupted and outstanding performance.

Application scenarios

Outdoor media advertising, bus stop signage, commercial square, scenic area signage, outdoor bulletin board.
